

**Annual PPS Meeting, Paris 2018**

**UICP 16, rue Jean Rey, 75015 Paris**

**Thursday**

**Registration: 13.00: 1 hostess + Rodrigo**

***I need a PP to put on the screen in front of the conference centre + 100/150 congress bags (program + documents on Paris)***

**Symposium – Placenta / perinatal pathology – 14.30-16.30**

Chairs: Suzanne Mol & Beata Hargitai

- Raj Kapur – Pathogenesis of sirenomelia and other caudal regression anomalies.
- Sophie Patrier – Placental mesenchymal dysplasia and gestational trophoblastic disease.
- Jelena Martinovic – Review of fetal renal cystic disease – pathology and genetics.
- Susan Arbuckle – Approach to the 3<sup>rd</sup> trimester stillbirth placenta.

*At the end of the session, the attendees should be able to:*

- 1. Understand caudal regression anomalies in the developing fetus.*
- 2. Understand the pathology of placental gestational trophoblastic disease and mesenchymal dysplasia.*
- 3. Have an up to date understanding of pathology and genetics of fetal onset cystic renal disease.*
- 4. Develop an approach to the handling and interpretation of the placenta in cases of stillbirth in the 3<sup>rd</sup> trimester.*

**Symposium – Paediatric Tumours Update – 17.00 – 19.00**

Chairs: Aurore Coulomb & Sophie Collardeau-Frachon

- Gordan Vujanic - Update on paediatric renal tumours, including recent advances in molecular pathology .
- Miguel Reyes-Mugica - Gonadal tumours in childhood.
- Rita Alaggio – Update on molecular pathology of soft tissue tumours in childhood.
- Michel Peuchmaur - Neuroblastoma: Update on biology / genetic and morphological markers of prognosis.

*At the end of the session, the attendees should be able to:*

- 1. Acquire an understanding of up to date insights into paediatric kidney tumours, including genetic and biologic markers of prognosis.*
- 2. Acquire knowledge of pathology of gonadal tumours of childhood.*

3. *Acquire knowledge of updated genetics of paediatric soft tissue tumours*
4. *Acquire an understanding of up to date insights into neuroblastoma, including genetic and biologic markers of prognosis*

**Welcome ceremony: 19.00 in the conference centre**

## **Friday**

**Proffered papers 8.30-10.00**

Chairs: Jane Dahlstrom & Alfons Nadal

Focus on placenta and non-tumour surgical pathology.

**Coffee break 10.00-10.45**

**Meet the Expert Session 10.45-12.00**

Chairs: Samantha Holden & Rita Alaggio\*

- Miguel Reyes-Mugica and Maren Fuller
- Peter Nikkels

*At the end of the session the attendees would be able to:*

1. *Enhance their knowledge of and approach to challenging complex cases.*
2. *Gain an understanding into the approach to a complex case of testicular pathology*
3. *Gain an understanding of the approach to diagnosis and classification of skeletal dysplasia.*
4. *Gain further insight into technical aspects of these difficult cases.*

**John Emery Lecture – 12.00-13.00 – Raj Kapur**

“What I wish I knew about Hirschsprung disease”.

Chair: Gordan Vujanic

**Lunch break 13.00-14.00**

**Medieval Paris tour for accompanying people: the guide Patrice will wait you in front of the conference centre at 14.00 and will come back with the group at 18.30**

**Proffered papers (cont.) – 14.00-16.00**

Chairs: Nicky Graf & Kathrin Ludwig

Focus on paediatric tumour pathology.

**PPS AGM – 16.00**

*Gala Dinner – meeting point 20.00 on L'île aux cygnes. It is at a walking distance from the conference centre. The boat leaves the island at 20.45 and will be back at 23.00.*

## **Saturday**

**Proffered papers** (cont.) – 09.00-10.30

Chairs: Marta Cohen & Sophie Patrier

Focus on perinatal and forensic pathology.

**Coffee break: 10.30-11.00**

**Pulmonary Pathology Slide seminar** - 11.00-13.00

Chairs: Paula Borralho Nunes & Slavisa Djuricic

- Megan Dishop - Surfactant protein disorders
- Case presentations:
  - Megan Dishop
  - Aurore Coulomb
  - Jill Lipsett

*At the end of the session the attendees would be able to:*

1. *Understand the current classification and lung pathology of disorders of surfactant proteins.*
2. *Gain an approach to difficult cases in paediatric lung pathology.*

***Père Lachaise tour : the bus will wait for us in front of the conference centre to have a light lunch in a typical Parisian place and then visit Père Lachaise with our guide Patrice. We will be back at 18.00 or 18.30***
